DIPLOMADO CISCO

Informe de Habilidades Prácticas

Firma del Jurado

DEDICATORIA

El presente trabajo es dedicado en primer instancia a Dios por darme la fuerza para sobre pasar todos los obstáculos durante el procesos de formación, en honor a mi difunta madre que fue el motor para continuar cada día y a mi hijo quien es la inspiración más grande y heredara todo lo aprendido.

AGRADECIMIENTOS

Agradecido con Dios y con la vida por las oportunidades brindas, a pesar de los duros momentos siempre hay una solución una luz, que hace las cosas buenas te pasen.

Agradezco a la UNAD, Por brindar un modelo de educación alternativo, que impulsa a la autonomía, por generar esa semilla del constante conocimiento de la indagación, investigación, de formar personas con autocritica y lo mejor de todo sentido social.

Gracias Universidad abierta y A distancia UNUAD.

INTRODUCCIÓN

Durante el curso extensivo de CCNA 1 Y CCNA2, se apropiaron conceptos y tecnicismo determinantes para meternos en el mundo networking, en base a la práctica constate se puede lograr a desarrollar las propuestas expuestas que nos servirán de entrenamiento para adquirir habilidades necesarias para desempeñarnos en el renombrado mundo networking.

OBJETIVOS

Objetivos Generales

Determinar la configuración de los escenarios propuestos.

Objetivos Específicos

- Configuración de parámetros básicos de dispositivos intermedios.
- Configuración de parámetros de interconexión de dispositivos finales.

DESARROLLO DE LOS ESCENARIOS

1. INFORME DE HABILIDADES PRACTICAS 1

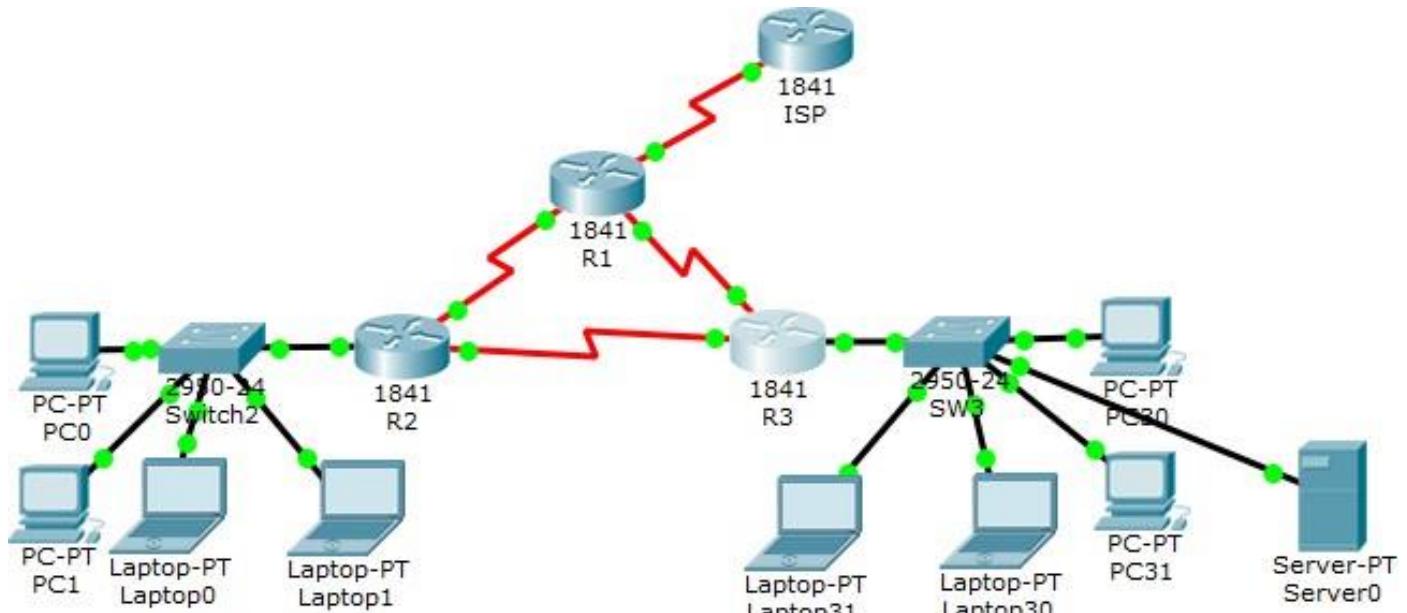

Figura 1

Tabla de direccionamiento

El administrador	Interfaces	Dirección IP	Máscara de subred	Gateway predeterminado
ISP	S0/0/0	200.123.211.1	255.255.255.0	N/D
R1	Se0/0/0	200.123.211.2	255.255.255.0	N/D
	Se0/1/0	10.0.0.1	255.255.255.252	N/D
	Se0/1/1	10.0.0.5	255.255.255.252	N/D
	Fa0/0,100	192.168.20.1	255.255.255.0	N/D

PC20	NIC	DHCP	DHCP	DHCP
PC21	NIC	DHCP	DHCP	DHCP
PC30	NIC	DHCP	DHCP	DHCP
PC31	NIC	DHCP	DHCP	DHCP
Laptop20	NIC	DHCP	DHCP	DHCP
Laptop21	NIC	DHCP	DHCP	DHCP
Laptop30	NIC	DHCP	DHCP	DHCP
Laptop31	NIC	DHCP	DHCP	DHCP

Tabla 1

Tabla de asignación de VLAN y de puertos

Dispositivo	VLAN	Nombre	Interfaz
SW2	100	LAPTOPS	Fa0/2-3
SW2	200	DESTOPS	Fa0/4-5
SW3	1	-	Todas las interfaces

Tabla 2

Tabla de enlaces troncales

Dispositivo local	Interfaz local	Dispositivo remoto
SW2	Fa0/2-3	100

Tabla 3

Situación

En esta actividad, demostrará y reforzará su capacidad para implementar NAT, servidor de DHCP, RIPV2 y el routing entre VLAN, incluida la configuración de direcciones IP, las VLAN, los enlaces troncales y las subinterfaces. Todas las pruebas de alcance deben realizarse a través de ping únicamente.

Descripción de las actividades

- 1.1 SW1** VLAN y las asignaciones de puertos de VLAN deben cumplir con la tabla 1.

Vlans y Puertos

SW2
Switch>enable Switch#config Configuring from terminal, memory, or network [terminal]? Enter configuration commands, one per line. End with CNTL/Z. 1(config)#HOSTNAME SW2 SW2(config)#VLAN 100 SW2(config-vlan)#name Laptops SW2(config-vlan)#vlan 200 SW2(config-vlan)#name destops SW2(config-vlan)#exit SW2(config)#interface range fa0/2-3 SW2(config-if-range)#switchport mode access SW2(config-if-range)#switchport access vlan 100 SW2(config-if-range)#exit SW2(config)#interface range fa0/4-5 SW2(config-if-range)#switchport mode acces SW2(config-if-range)#switchport access vlan 200 SW2(config-if-range)#interface fa0/1 SW2(config-if)#switchport mode trunk SW2(config-if)#exit

```

CONCLUSIONES

Teniendo como base las prácticas realizadas en el periodo de estudio del curso CCNA1 y CCNA2 según el análisis del escenario en la actividad práctica prueba de habilidades, realizado en modo simulación usando el programa Packet Tracer que permite el diseño y la configuración de los escenarios propuesto para la solución del problema. Con el cual se debe contar de tiempo y dedicación para su completo desarrollo y mejor a un entendimiento, del extensivo curso Cisco se apredio a diseña topologías y direccionarlas, además de la creación de subredes que ayuden a la eficacia de las redes.

A través de las configuraciones realizadas en los dos escenarios se aprendió a coordinar y controlar una red, de manera que sea más eficaz, rápida y robusta en cuanto a la seguridad.
